

Bi-Bright®

Interactive Table

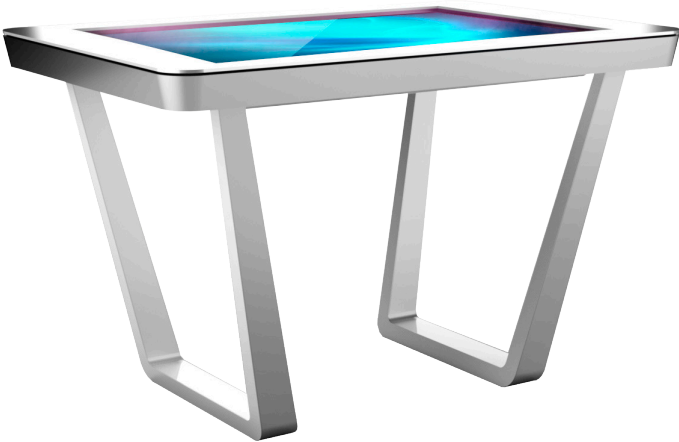

TA007

- Lacquered steel structure
- Top frame available in steel or glass

BRING MULTIMEDIA CONTENTS AND INTERACTIVITY TO OFFICES WITH A UNIQUE COLLABORATIVE MULTI TOUCH SCREEN.

Bi-Office Interactive technologies are a reliable and economical solution to keeping your office environment with future technology expectations. They are engineered for easy use, and versatile for any work environment – making collaboration and adoption rates high and working efficient.

The interactive table uses a multi touch screen with simple design lines allowing to stand next to the screen to search the web and checking useful information for the daily working activities.
