

G-Touch® 4K Classic

G-Touch® 4K Classic Range

The all-new Classic now with 4K technology! Designed for the digital classroom, the 4K Classic is an easy to use but powerful solution to engage students and empower teachers. As a leading manufacturer of touchscreens, we work closely with educational institutions to establish their needs and requirements. All of our G-Touch® range of touchscreens are Windows, Mac and Chromebook compatible.

Utilising the latest anti-glare technology, the 4K Classic ensures that content is always visible in any environment and from any seat in the classroom. Crystal clear audio via the front facing speakers is ideal when incorporating video presentations or remote sessions into a lesson.

No need to recreate your presentation or lesson content!

Our SPARK II whiteboard software allows you to import files from PowerPoint, PDF, IWB Files and SMART Notebook files. SPARK II also supports a range of multimedia and has tools to make lessons more interactive and collaborative.

SPARK II is free for all G-Touch® Screens and also free for students to use on their own devices.

The solution that fits your needs

Bundle your G-Touch® screen with an OPS unit, Genee Vision Visualiser or Genee Mobile Trolley to create the perfect solution to meet your needs.

Key Features & Benefits

Spark II Software

The ultimate classroom presentation software designed for ease of use is free with our Genee G-Touch® screens.

Project Flow Software

Encourages student collaboration and enables teachers to automatically differentiate lessons. (60 Day Trial)

Front Facing Speakers

The speakers are front facing to maximise the output of sound projected.

Connection & Bezels

Easily accessible connection ports and 4 section bezels to enable on site repairs without having to return to base.

Upgradeable Built-In PC Option

All G-Touch® models have the option to add a built-in PC. Our simple 'slide and secure' fitting options allow for easy upgrades.

Multi-Touch

With multi-touch technology several students are able to work and collaborate on the screen at once.

Anti-Glare

Our Classic screen is anti-glare enabling it be viewed in any environment regardless of the weather!

G-Touch® 4K Classic
