

The board is supplied inclusive screws, plugs and drilling template.

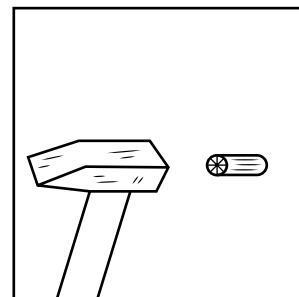

**1.**  
There is metal on the back of the glass board. The metal back is prepared with holes.

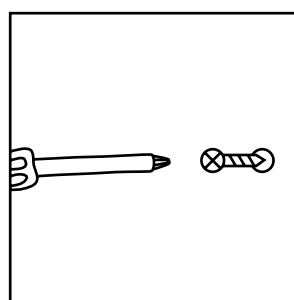

**2.**  
Attach the drill template to the wall with tape.

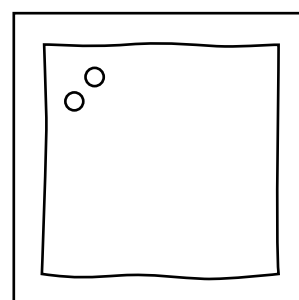

**3.**  
Drill two holes through the template.

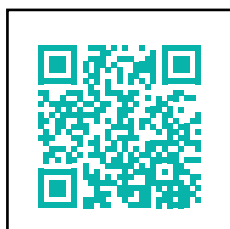

**4.**  
Put the plugs into the holes.

**5.**  
...and screw in the screws.

**6.**  
Hang the board on the screws. Your glass board is ready for use!
