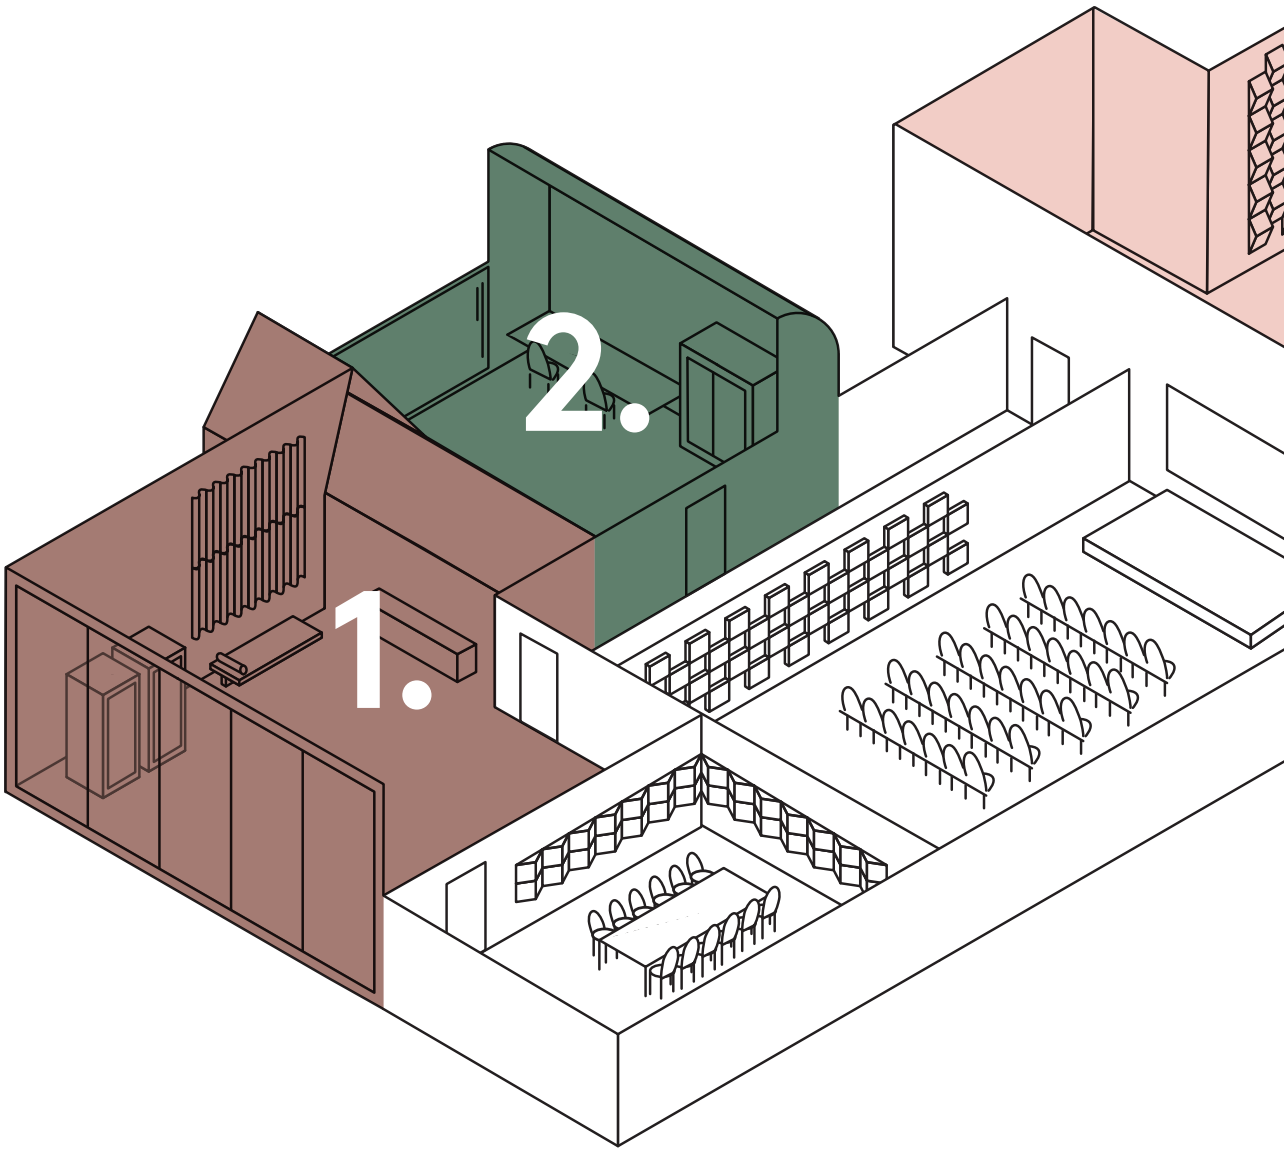
y and quietness.

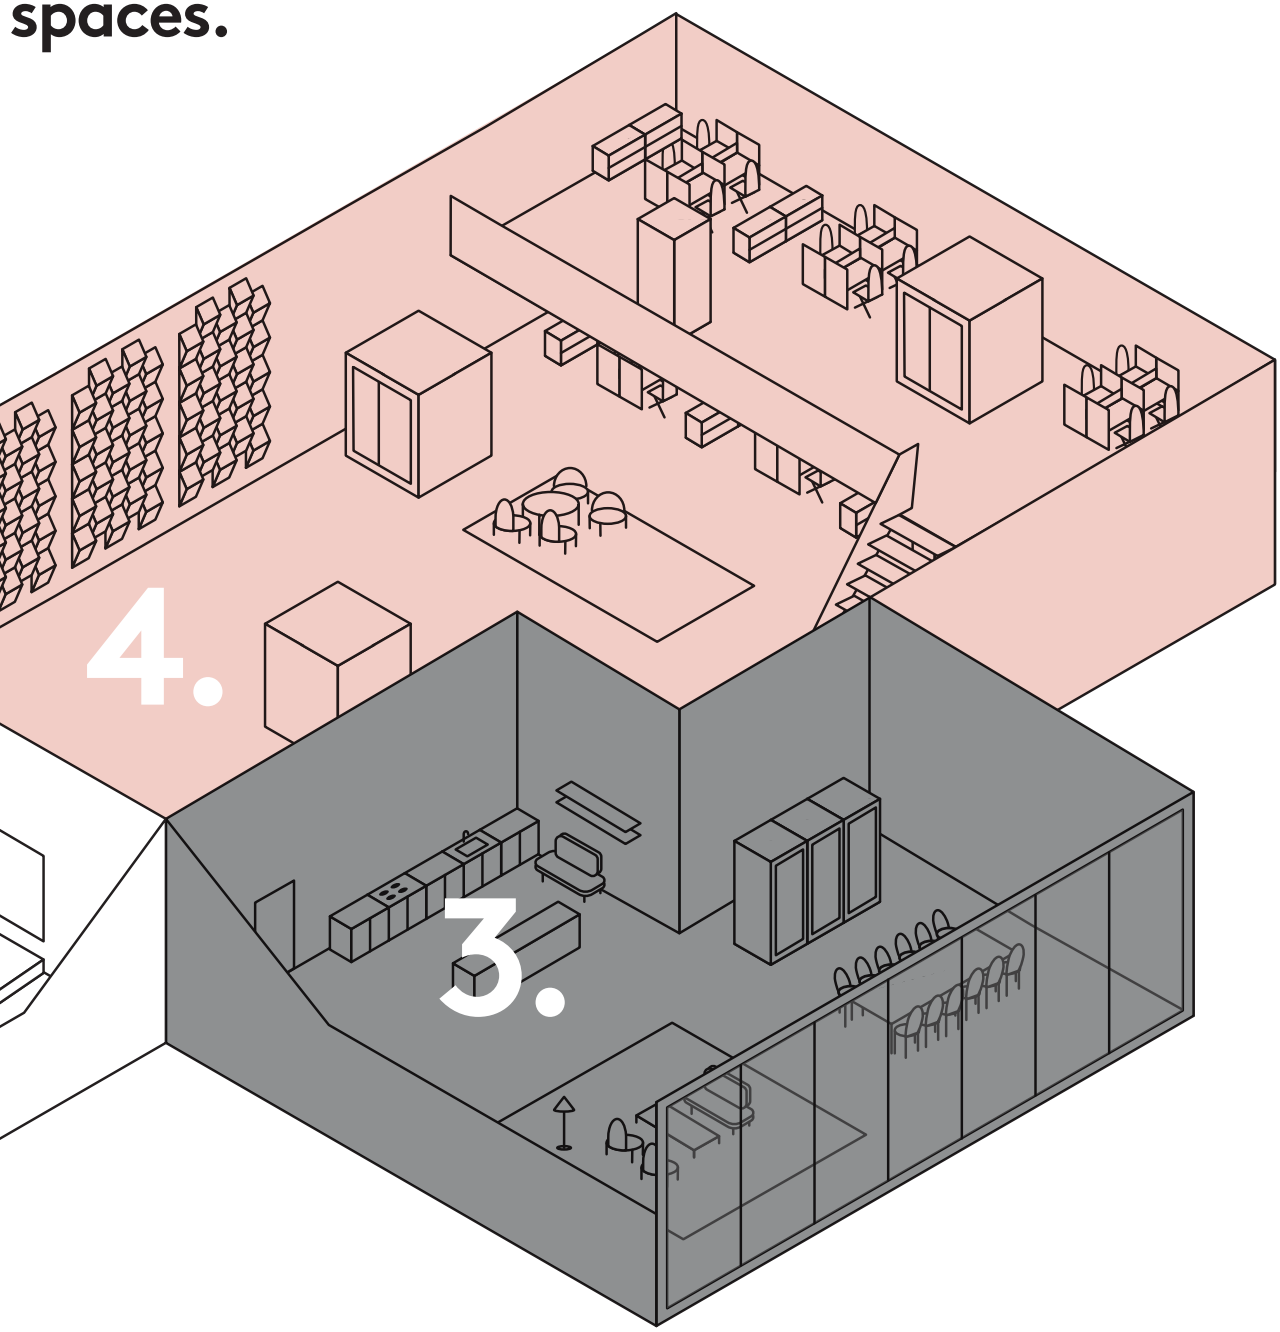
It is easy to integrate Plenty Pod into various



1. The Lobby
Spaces such as waiting rooms, reception halls, and lobbies at hospitals or hotels, have changed radically in the digital era. Today, they are used for all kinds of activities. With Plenty Pod, people can make phone calls and have one-to-one conversations in privacy, without bothering others.

2. The Library
Silence, please! Plenty Pod makes it easier to maintain peace and quiet in libraries, and reading rooms.

spaces.



3. The Kitchen
With Plenty Pod it is easy to briefly leave the kitchen table, to make a short phone call, or to reply to an important email.

4. The Open Office
Plenty Pod is well suited for open offices. The modules are perfect for meetings and for tasks that demands concentration and focus.

leave the noise instead.

Make phone calls in lobb
without distu

pies and waiting rooms,
urbing others.

With Plenty Pod, you don’t have to rush out from the reading room to answer the phone.

Plenty Pod not only offers silence on the inside. It is also a shield, that dampens sound on the outside.

Abstracta's tools for a better soundscape

Absorption

Absorption means that the sound that hits the surface gets absorbed and transformed into heat energy. The clothed acoustic screens from Abstracta efficiently absorb sound, and thereby contribute to a pleasant acoustic environment.

Diffusion

Diffusion means that a sound hitting the surface "scatters", which helps one to avoid unpleasant sound reflections, or echoes. Using diffusion is often a good complement to absorption in the process of creating a good acoustic environment.

Attenuation

Attenuation means that an object shields off and lessens the sound level from one side of the object to the other. A good screen can attenuate the sound level with 10-15 dB between two work stations. Compare this to a wall, which normally attenuate 35 dB or more. Abstractas quiet room Plenty Pod attenuate 36dB from one side to another.

Environment and quality

We are continuously working to make our operation impact as little as possible on the environment. Abstracta is environment and quality certified according to ISO 14001, ISO 9001 and OHSAS 18001.

Plenty Pod is an environmentally sound choice, with a high level of recycled materials.* The fabric is approved by EU Ecolabel.

*** Sound absorbing core: 50 %. Aluminium frame: 50 %. Carpet: 50 %.**
