

Social Distance assortment

Free-standing divider structures

The basic set contains one screen with 2 steel feet to place to place the wall freestanding in a room. Mobile feet are also available.

With additional accessories you can easily connect walls. For example, 2 screens next to each other or 4 screens together as a cross.

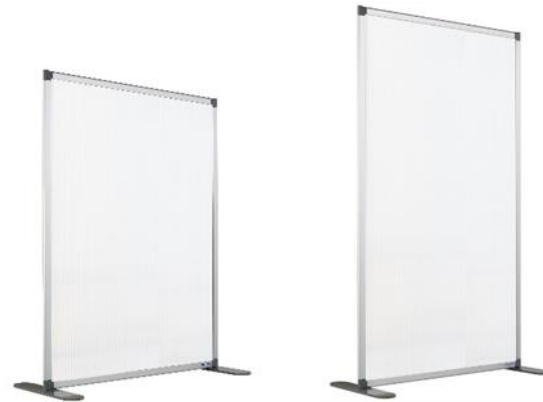

Partition Walls

Working together safely. On places where there is a lot of traffic, workplaces can be separated with these walls.

- Very stable construction
- Translucent
- Lightweight frame

Sizes:

- H180 x W120 cm
- H140 x W120 cm

The semi-transparent surface consists of a clear polycarbonate hollow core sheet

Partition wall Natural

Go for the natural look! This room divider has thick honeycomb cardboard and a plywood wooden base. These natural materials give the room divider a unique character for unique organisations. The material is lightweight, which makes this room divider very suitable for setups that change regularly.

The advantages:

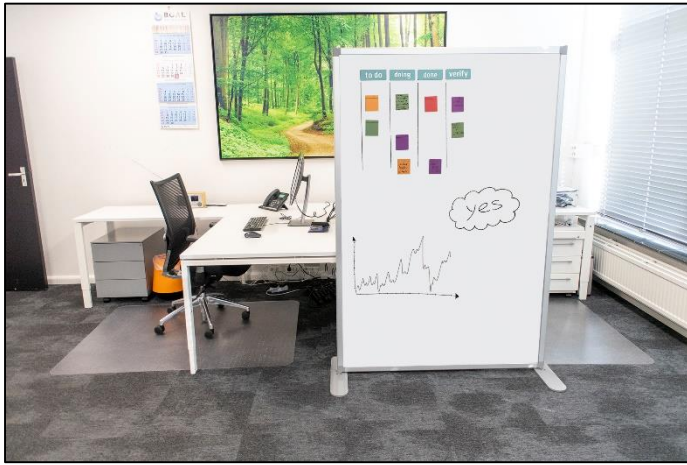

- Sustainable: FSC® certified honeycomb cardboard and untreated Plywood base (Licence code FSC-C137061)
- Plywood base gives the construction sturdiness and stability
- Connecting wall sections is possible
- Very affordable option

Sizes:

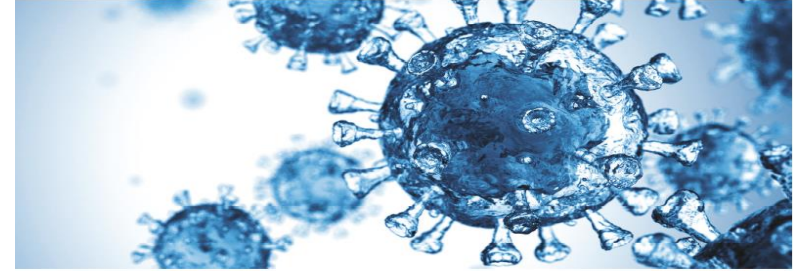

- H180 x W120 cm
- H140 x W120 cm

Available with Extra Hygienic Enamel

Smit Visual Introduces Extra Hygienic Enamel. This new whiteboard surface uses a technology in which silver microparticles ensure that bacteria and viruses are actively eliminated. Ask for availability.

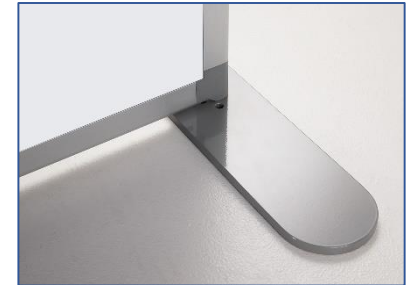

Partition wall whiteboard Double-sided enamel

When collaboration is important within your organisation, choose our double-sided whiteboard surface.

- Double-sided enamel with lifetime warranty
- Pore-free surface preventing dirt and bacteria from adhering.
- Lightweight frame

Sizes:

- H180 x W120 cm
- H140 x W120 cm

Movable screen with plexiglass

Create a safe layout in no time in any conference room, canteen, auditorium etc. These versatile screens are movable and very lightweight.

- Ideal for flexible use of space
- Lightweight plexiglass and aluminium frame
- All wheels are equipped with brakes
- Easy to install

When these screens are not needed, they can easily be driven to a corner of the room. This is also useful for cleaning teams. Floors can be emptied in a short time for thorough cleaning.

Sizes:

- H190 x W80 cm
- H190 x W126 cm

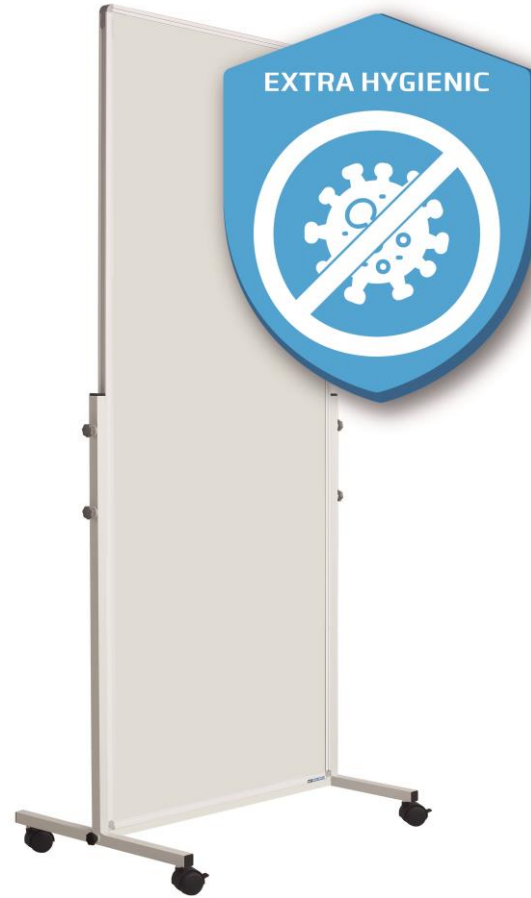

Movable screen with Extra Hygienic Enamel

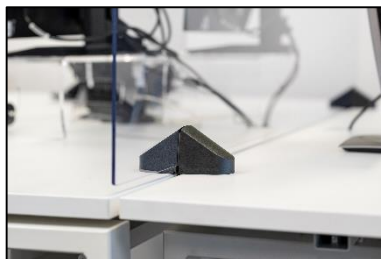

Create a safe layout in no time in any conference room, canteen, auditorium etc. These versatile screens are movable and very lightweight.

The whiteboard surface is equipped with Extra-Hygienic Enamel. This new technology incorporates silver micro particles that eliminate 99% of all bacteria and viruses present within 24 hours (including the current Corona virus SARS-CoV-2). And this happens during the entire lifespan of the product.

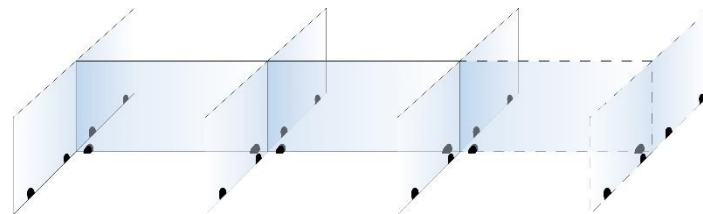

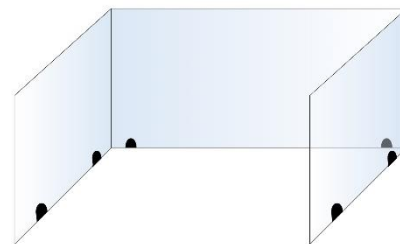

Desk / table
Divider structures

Clamp for double desk

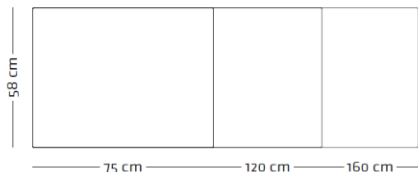

Divider screens Fixed desk clamp

Plexiglass screen with 2 desk clamps. The thickness of the plexiglass panels (5 mm) ensures the panel remains stable.

- suitable for all desks including sit/stand desks.
- Stable sturdy design
- Clear visibility. Line of sight in the space is maximally preserved with little disruption to the interior design.

Screen sizes:

- H58 x W75 cm
- H58 x W120 cm
- H58 x W160 cm

New:

for a more permanent solution, we now offer 4 mm safety glass in the same sizes, suitable for the same clamps. Safety glass is:

- More fireproof than plexiglass
- More durable than plexiglass
- Cheaper than plexiglass
- Safe to use

Set adjustable clamps for desk panel

Desk clamp with the option of mounting glass and plexiglass screens to the desk in 2 positions. The clamp can be rotated 90°, enabling the screen to be mounted not only on the sides of the desk but also across the desk.

Benefits:

- Adjustable in 2 positions to allow multiple desk mounting options of panels
- Protective foil prevents damage to the desk surface
- Solid construction

Specifications:

- Minimum desk thickness: 2 cm
- Maximum desk thickness: 5,2 cm
- Maximum panel thickness: 19 mm
- Steel clamp with black powder coat finish
- Foil to protect the desk surface

Divider screens Wooden base

Plexiglass screen with plywood base. With the different base elements you create a modular construction in any way needed.

- Quick build-up, easy to disassemble
- Stable design
- Ideal for large conference tables

Screen sizes:

- H58 x W75 cm
- H58 x W120 cm
- H58 x W160 cm

The basic set contains one screen with two T-elements. Each base has slots in all directions making linking multiple screens easy. The plexiglass screens and plywood bases can also be ordered separately.

The plywood bases are available in shapes T, X and L.

Multiple screens can be linked at the top with additional available connecting elements.

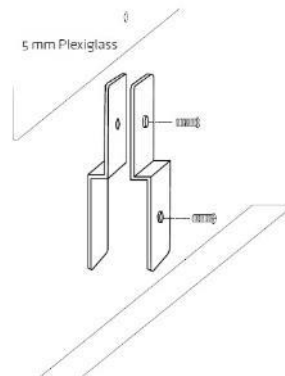

Plexiglass extension panel

With this extension panel, an existing office partition is raised with a transparent partition. Existing partitions are often low so that employees who sit opposite each other can look at one another. To observe hygiene measures, the existing section can be raised using this transparent panel. This forms a safe barrier, while eye contact remains possible.

Specifications:

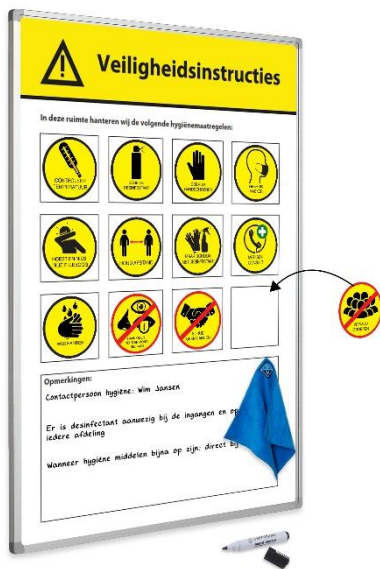

- Panel dimensions: 160 x 30 x 0.5 cm
- Polished rims without sharp edges, rounded corners
- Installation is possible on all partition elements up to 34 mm thick

Writable boards

PRESENT

ABSENT

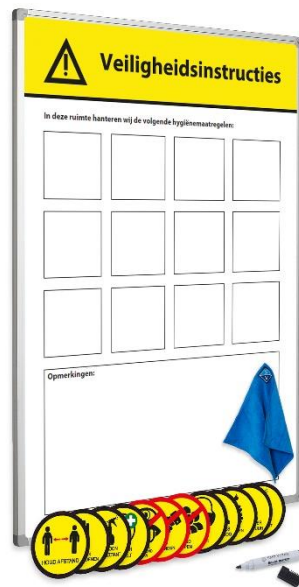

With this product, each room meets the 'social distance economy', taking into account the changing measures in society.

Safety rules warning sign

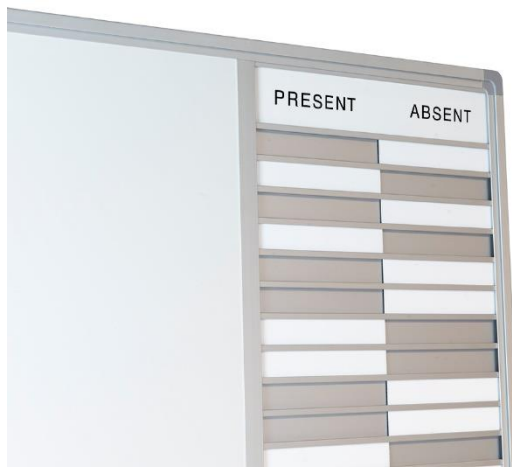

This warning sign with separate magnets displays the safety rules for each room or building. The included magnets can be used to communicate a different set of measures for each situation. The warning sign is magnetic, writable and dry erasable.

Sizes:

- 30 x 45 cm
- 60 x 90 cm

This board is supplied including a complete set accessories; pen tray, set of 12 printed magnet sheets, magnetic microfibre cloth and a black whiteboard marker.

Safety Attendance board

Many companies are ensuring that employees alternate between working from home and being present at the office. With this attendance board you can immediately show who is present and who is not. On the whiteboard next to it, for example, a schedule can be made for the coming weeks.

- The whiteboard part is magnetic, writable and dry erasable.
- This product comes with blank engraving plates, suspension accessories, tray, set of 12 printed magnetic sheets, magnetic microfibre cloth and a black whiteboard marker.

Whiteboard Extra Hygienic Enamel

This whiteboard offers extra hygienic protection in demanding environments such as hospitals, care facilities, public workspaces and spaces with lots of user traffic, such as workshop rooms.

The whiteboard surface is equipped with Extra-Hygienic Enamel. This new technology incorporates silver micro particles that eliminate 99% of all bacteria and viruses present within 24 hours (including the current Corona virus SARS-CoV-2). And this happens during the entire lifespan of the product.

Sizes
90x120 cm
120x150 cm
120x180 cm
120x200 cm
120x240 cm
120x300 cm

Hygiene Accessories

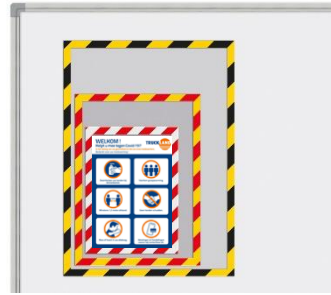

Attention Door sticker

It looks like communicating hygiene measures in buildings is acquiring permanent status. Indicate in a proper and subtle way what hygiene measures apply per room. These door stickers are attached to the door or next to it with double-sided tape or with the supplied screws and dowels. You can print the measures on paper and insert them yourself.

- The print is protected by an anti-reflection acrylic glass.
- Information can be replaced at any time by the clamping system with 25 mm click profile.

Magnetic Sleeves

Are your hygiene measures printed out in A4 format? Give them an eye-catching and neat spot on your whiteboard(s) or other steel surfaces with these magnetic sleeves. The paper remains clean, wrinkle-free and legible. The sleeves are available in numerous colours.

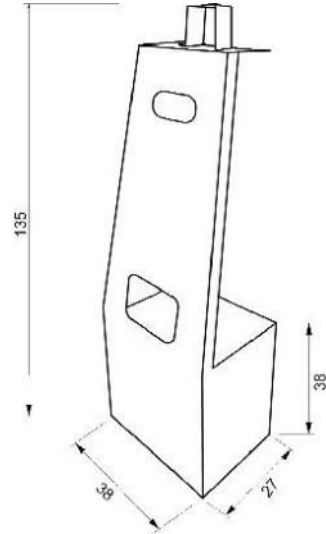

Totem Gel dispenser

Hygiene will remain an ongoing theme in the years to come. As an alternative to a temporary product, this Totem gel dispenser offers a (semi-)permanent solution for organisations wishing to uphold their prominent image. This product includes a 1L bottle of disinfecting gel.

Tissues can be placed in the opening underneath, which can then be disposed of in the waste bag mounted behind the lower opening. This provides your guests and staff with a convenient solution to meet their every need.

Stay safe.
