4 fixings

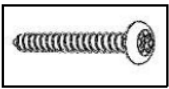

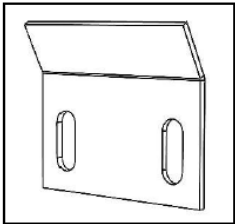

## Board Size

1780mm x 1180mm | 1980mm x 1180mm

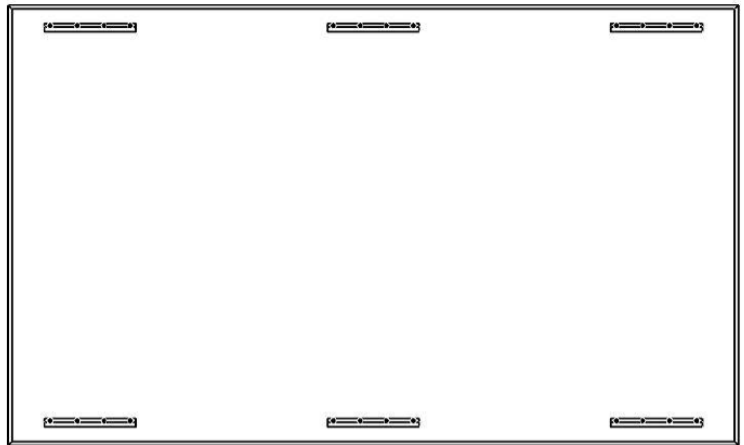

2380mm x 1180mm

6 fixings

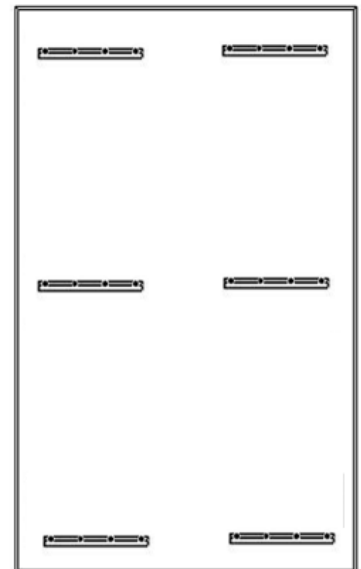

Wall brackets supplied pre-attached to whiteboard brackets.

Ø 5 mm  
Not incl.

For hollow or stud walls ensure you use appropriate wall anchors (not provided).

It is recommended that two people are present to hold and manoeuvre the whiteboard into place.

- 1) Measure your wall space and choose the location for the whiteboard to be fitted.
- 2) Mark on the wall where your whiteboard will be fitted. Measure the distance from the edge of the whiteboard to the middle of the whiteboard bracket.
- 3) Locate the bracket on the wall where required and mark through on the holes where the wall bracket should be situated.
- 4) Removing the bracket, drill holes in the wall and ensure suitable wall anchors are used appropriate to the wall material.
- 5) Attach wall brackets to the wall securely.
- 6) Bring whiteboard to the wall and slide the brackets on the back of the whiteboard over the wall brackets ensuring all have allocated and are secured.
