

# Shush Upsy™

Acoustic free standing screen

Our Shush Upsy™ Free standing acoustic screen range is a sound absorbing screen designed to control echo and reverberation in open spaces. The screens can be positioned as required which provides greater design flexibility, creating spaces within your space.

# What is Shush Upsy™ Free Standing Acoustic Screens?

What sets our screens apart is their commitment to sustainability. They are crafted from 100% recycled materials and are fully recyclable, aligning with our dedication to eco-friendly practices. We understand the importance of responsible consumption, and you won't have to worry about disposing of these screens. The core material of our Shush Upsy sound absorbing freestanding screens is a compressed polyester, meticulously manufactured using post-consumer recycled polyester derived from plastic bottles and are available in 24mm thickness in 23 different colours.

## Technical + Acoustic Performance

Acoustic Absorber - Upsy™ Free Standing Acoustic Screen - 24mm
