APPLYING PROJECTOR PAINT

Boards Direct projector paints is a high quality projection paint that enable you to project the clearest images possible. Each tin covers an area of 6m^2 area.

1 PREPARE THE SURFACE

- All surfaces to be painted should be clean, dry and free from loose materials.

- Measure the area you wish to paint and clearly mark it using masking tape.

- Prime bare, untreated surfaces with White Primer.

- Once primed, lightly sand the surface, reprime any areas that require it after sanding.

2 APPLYING THE PROJECTOR PAINT

- Stir paint thoroughly before use.

- For best results, apply paint using a mohair roller.

- Apply 2 coats, allowing first coat to dry before applying the second coat (approx. 2 hours).

3 DRYING TIME

- Projector Paint will be touch-dry in 1 hour and usable after 24 hours.
