

The Millhouse Home from Home range has been designed for young children to ease the transition from their own home environment to an early years environment. By selecting key furniture pieces that children associate with home, it provides a sense of familiarity that promotes comfort and well-being.

In designing the range, we've drawn inspiration from both modern and traditional home furniture to create a cohesive collection that has a distinctive style but coordinates beautifully with the wider Millhouse range.

The curved design and soft edges of the Millhouse Home from Home range, create a calm and contemporary aesthetic that is further enhanced by the neutral colour palette of cream and maple.

The Millhouse Home from Home range is designed with children in mind and provides endless opportunities for learning through child and practitioner led role play scenarios, as well as providing an enriching environment to develop important language skills.
